Re: Veterans Service Organization oppose H.R. 1927 the “Fairness in Class Action Litigation and Furthering Asbestos Claims Transparency Act”

Dear Speaker Ryan, Leader McCarthy, Leader Pelosi, and Whip Hoyer:

We, the undersigned Veterans Service Organizations oppose H.R. 1927 the “Fairness in Class Action Litigation and Furthering Asbestos Claims Transparency Act of 2015.” We have continuously expressed our united opposition to this legislation via written testimony to the House Judiciary Committee, House Leadership, in-person meetings and phone calls with members of Congress, and most recently, an op-ed many of our legislative teams submitted to “The Hill”, entitled “*Farenthold has his facts wrong: The FACT Act hurts Veterans*”. It is extremely disappointing that even with our combined opposition H.R. 1927 stands poised to be voted on the House floor later this week.

Veterans across the country disproportionately make up those who are dying and afflicted with mesothelioma and other asbestos related illnesses and injuries. Although veterans represent only 8% of the nation’s population, they comprise 30% of all known mesothelioma deaths.

When our veterans and their family members file claims with the asbestos bankruptcy trusts to receive compensation for harm caused by asbestos companies, they submit personal, highly sensitive information such as how and when they were exposed to the deadly product, sensitive health information, and more. H.R.1927 would require asbestos trusts to publish their sensitive information on a public database, and also include how much money they received for their claim as well as other private information. Forcing our veterans to publicize their work histories, medical conditions, social security numbers, and information about their children and families is an offensive invasion of privacy to the men and women who have honorably served, and it does nothing to assure their adequate compensation or to prevent future asbestos exposures and deaths.

Additionally, H.R. 1927 helps asbestos companies add significant time and delay paying trust claims to our veterans and their families by putting burdensome and costly reporting requirements on trusts, including those that already exist. One must to ask what is the real

motivation for this legislation brought forward by Representative Farenthold? Rather than pursuing legislation to make it easier and less burdensome for our veterans and their families to get the compensation they so desperately need for medical bills and end of life care, trusts will have to spend time and resources complying with these additional and unnecessary requirements at the expense of our veterans.

H.R. 1927 is a bill that its supporters claim will help asbestos victims, but the reality is that this bill only helps companies and manufacturers who knowingly poisoned our honorable men and women who have made sacrifices for our country.

We urgently ask on behalf of our members across the nation that you oppose H.R. 1927.
